The All-New Scorpio-N is completely new ground-up. Its imposing stance is accentuated by various design elements that will certainly make heads turn wherever it goes.

The Scorpio-N takes forward the muscle factor to a whole new level. On the inside, it is just as captivating.

- **Imposing stance** accentuated by various design elements such as the long hood and functional roof rails.
- **Signature double barrel headlamps**, sting-like DRLs encasing the foglamps and stacked tail lamps. All LED lights will ensure you lead the way.
- **Diamond cut 18" alloy wheels in Z8 and Z8L**
- **Sting-inspired chrome design element –** a metallic tail element is seamlessly integrated into the beltline, swinging all the way to the top of the window, giving the Scorpio-N more of a sting.
- **Leather wrapped dashboard with metal finished dual rails.**
- **Top-notch craftmanship -** rich coffee-black leatherette upholstery.

Taking premium to the next level.

## Thrilling Performance

The All-New Scorpio-N is engineered for those looking for a new-age authentic SUV.

## Say High to Power

Power runs in Scorpio-N's veins and it delivers a performance that is synonymous with the Scorpio DNA.

- 2.2l mHawk Diesel engine
- 128.6 kW with 400 Nm torque

Scorpio-N doesn't waste time when it comes to dominating the streets.

## Gear Up Effortlessly

The engine comes with a 6-speed automatic transmission equipped with the segment first 'shift-by-cable' technology to offer excellent shift quality and drive comfort

## Choose Your Drive

Scorpio-N offers three distinct drive modes. **Zip** for easy control and smooth riding, especially through traffic. **Zap** for a true Mahindra SUV performance. **Zoom** to amp it up for a more engaging and potent drive quality.*

CAPABILITY
FOR EVERYONE
When it comes to capabilities,
Mahindra SUVs are lonely.
Because no one else even comes
closer. Every feature is crafted to
outperform the last.
*Specifications may vary by model.
Disclaimer: Creative visualisation. For illustrative purpose only.

Every feature on the all-new Scorpio N is designed to provide an unparalleled driving experience that sets a new standard for performance. With its advanced engineering, even the most inexperienced driver can confidently tackle any terrain with ease.

» **Rear wheel drive** in normal driving conditions.

» **Next generation platform body-on-frame construction** has been engineered to ensure every drive is safe, comfortable and exciting.

» **4XPLOR –** intelligent terrain response system on 4x4 models to rule all terrain. From mud to sand, gravel and normal off-road.

» **Mechanical rear locking differential –** Locks the differential to split power equally to both wheels on the axle. Helps in off-road situations and ensures maximum traction in all conditions.

» **Electronic brake locking differential –** Ensures maximum traction in all conditions. Applies brakes to certain wheels when they have less traction and sends power to the wheel with more traction.

» **Pentalink suspension –** A Watts (five) link mechanism offers a confident ride and handling attributes, especially on undulated sections of the roads as it prevents lateral movement.

## Full of Powerful

Scorpio-N is built to be a rear wheel drive, authentic Mahindra SUV, giving an added push to the already remarkable torque.

## Reign Every Terrain

High performance tailored for the terrain you're driving on, at your fingertips. Scorpio-N's traction capabilities are enhanced by employing the most advanced 4XPLOR terrain mode that intelligently optimises the traction for different terrains automatically. So be it snow, sand, mud or a normal road, with the 4 low and 4 high gear options – Scorpio-N is always in control.

» Shift-on-the-fly 4X4 high option available

## Strong From Scratch

This 'engineered from scratch' platform gives Scorpio-N an agile structure that intimidates everyone else. The strong yet efficient "next generation 3G frame" whose bending and torsional stiffness is significantly improved to provide a world-class structural rigidity, off-roading capability and impressive high-speed stability. Moreover, the high-strength steel make is designed to give added muscle to the whole body and frame.

## No Slipping

**Mechanical and brake locking differential that electronically locks up all axles in slippery conditions for maximum traction. Electronically controlled BLD arrests slip at each axle to ensure progress, no matter what.**

## Come What May

6 Airbags to protect you from every angle. The front, side and curtain airbags ensure the utmost safety of every occupant.

## Never Not Safe

The Driver Drowsiness Detector triggers an audio-visual alert to the driver if he feels drowsy while driving.

## Stability

Electronic Stability Control (ESC) suite packed with 18 features maintain complete control during steep turns, high speed, and panic braking.

## Ready & Steady

Uphill ride or downhill descent, it's no worry with Scorpio-N. Hill Hold to hold it from rolling back, in case you've stopped uphill. And Descent Control to limit its speed without your input when going down hill on a steep slope.

## Everyone's Safe

ISOFIX enhances safety when riding with children in the Scorpio-N.

## Brake Right

When the Scorpio-N needs to stop, it does so with precision. Thanks to ABS and EBD coupled with all 4-disc brakes on it.

## Monitors Danger

The state-of-the-art tyre pressure monitoring systems keep the tyre pressure and temperature in check. And alerts you to keep you averse from danger.

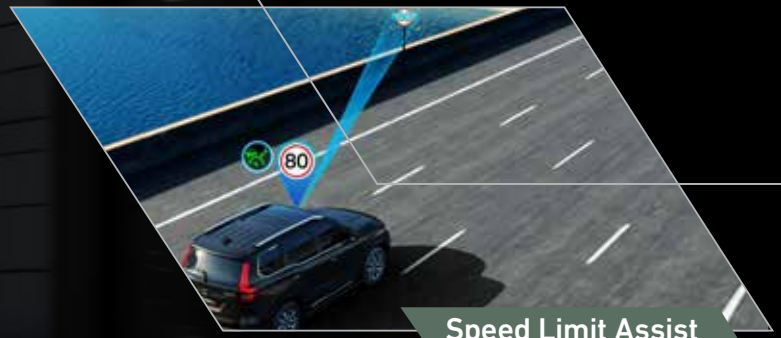
SIT BACK.
IT'S GOT YOUR BACK.
NOW WITH LEVEL 2 ADAS
SCORPIO
Forward Collision Warning (FCW) warns you of imminent collision with vehicles and pedestrians.
*Specifications may vary by model.
Disclaimer: Creative visualisation. For illustrative purpose only.

## Auto Emergency Braking

Automatic Emergency Braking (AEB) constantly scans the surroundings. It detects potential collision situations involving vehicles, cyclists, and pedestrians.

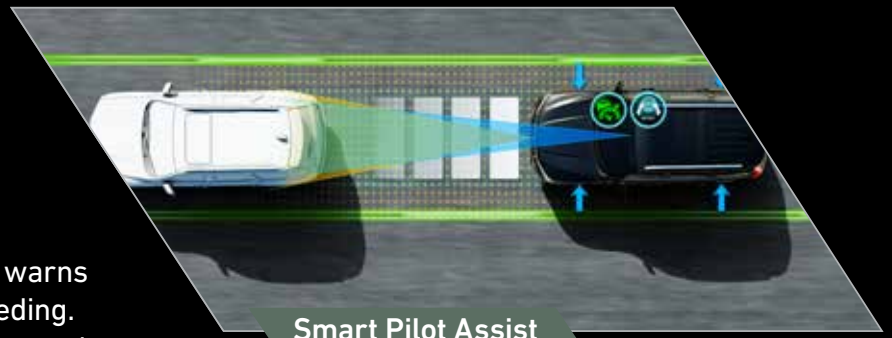
## Lane Departure Warning

The Lane Departure Warning (LDW) system offers visual, audio, and haptic alerts to the driver whenever the car is going out of its lane on either side with/without driver input.



## Speed Limit Assist

When a speed limit sign is detected, the Speed Limit Assist warns the driver with a blinking telltale if the vehicle is over speeding. SLA also assists the driver to adjust the cruise speed to match with the speed limit (within offset) with a single button.



## Smart Pilot Assist

The Smart Pilot Assist Employs a virtual smart pilot to take charge of steering, acceleration and braking to help the driver maneuver Scorpio-N better.

## Adaptive Cruise Control with Stop&Go

Adaptive Cruise Control (ACC) with Stop and Go is accessible on AT models. It automatically adapts your vehicle's cruising speed to match the pace of the vehicle ahead. Giving you seamless city and highway cruising without the need for frequent braking and reactivating cruise control.
