WELCOME THE ALL-NEW EECO PANEL VAN.

ALWAYS OPEN FOR BUSINESS

Suzuki is one of South Africa's fastest growing car brands. It has won numerous awards and prides itself on offering cars that consumers want and need.

Our all-new Suzuki Eeco panel van is no exception. It celebrates the South African spirit of hustle and hard work and has been designed to transport goods safely, efficiently and cost-effectively.

Sporting a large loading bay, an impressive list of safety features, performance and designed for driving comfort, it's no wonder that the Eeco panel van is already a market leader in India where it has sold close to a million units since its launch.

THE ALL-NEW EECO PANEL VAN

PACKED WITH MUST-HAVE FEATURES.

EEXTRA SPACE

The uniquely designed Eeco panel van has an impressive load-carrying capacity of 615kg with two passengers and a full tank of fuel.

It comes with a versatile cargo cabin flatbed and a completely covered cabin space, suited for all kinds of business requirements.

The load bay itself is wide and flat, offering a loading length of 1 620mm from the rear door to the start of the steel grid partition that is fitted as standard between the loading bay and cockpit.

The width of the load bay is an impressive 1 300mm and can easily fit a full-sized South African pallet, and with a height of 1 070mm, there is also enough space for large and bulky items.

Overall, the Eeco is 3 675mm long and 1 475mm wide with a wheelbase of 2 350mm.

EEXTRA EASY

Suzuki has used its specialist knowledge of compact vehicles to make the Eeco panel van extremely easy to handle.

In a tight spot? Among the many features is a rack-and-pinion steering system that has an aggressive steering ratio for a turning circle of only 9 metres. This allows for easy manoeuvrability in any location.

Equally important is the MacPherson strut front suspension which combined with a three-link rigid rear axle, allows for durability under any load.
The 13” wheels offer a ground clearance of 160 mm for safe road use, while also being a comfortable height for loading packages.

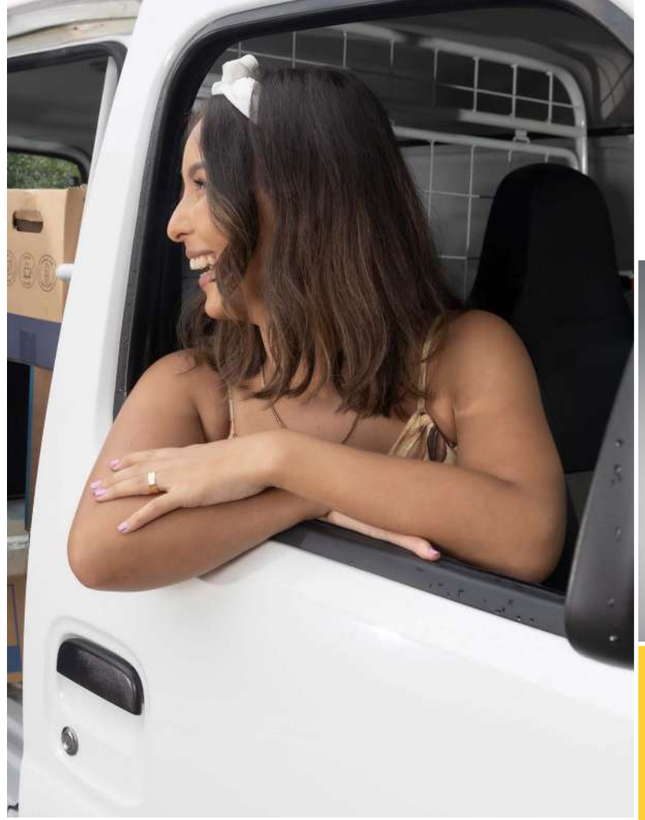
EEXTRA COMFORT

We have looked at extra ways to help make your every journey more fun and comfortable. For example, our wide opening side doors, wide rear luggage door and the low sill make loading and unloading so much easier.

Inside, the cabin is spacious with easily adjustable side mirrors, large and wide front side windows for easy navigation in compact spaces and a high, comfortable seating position for enhanced visibility.

The all-new Eeco panel van also features a powerful air conditioning and dome lamp battery saver function, which adds to the overall comfort of your driving experience.

While a 12V power socket is perfect for charging phones and GPS devices on the road, so you're always ready for business.



EEXTRA CONFIDENCE

The Suzuki Eeco panel van is unmatched when it comes to general maintenance.

The K12N engine is well known for its uncomplicated design and easy access to maintenance items such as spark plugs, engine oil and filters.

We have also opted for a single exterior colour in white, to allow for easy branding, quick and cost-effective repairs and low insurance costs.

Also standard on the Suzuki Eeco panel van is a simple steel wheel with a small centre cap that requires no maintenance.

EEXTRA FUEL-EFFICIENT POWER

The brand's well-known 1.2 litre petrol engine has a sterling reputation for being fuel efficient. The Eeco does not disappoint, with its extremely economical offering of 5.4L/100 km, you can drive 18.5 km per litre. While emissions are kept relatively low at 126g/km.

It has a multipoint fuel-injection system and a compression ratio of 12:1 for greater low-down torque and delivers 59 kW at 6 000 r/min and 104 Nm at 3 000 r/min. Power is delivered to the rear wheels through a manual five-speed transmission.

Enjoy peace of mind, knowing the following safety features come standard: two airbags – one for each occupant – and anti-lock brakes (ABS) and electronic brake-force distribution (EBD).

More impressive for its segment, is the inclusion of electronic stability control (ESP) as well as rear parking sensors, a high-mounted stop lamp and an anti-theft immobiliser. Lastly, the new Eeco has side-impact steel beams in the front doors and three-point retracting seatbelts for both driver and passenger and a seat belt reminder that triggers a warning signal.

MAJOR SPECIFICATION

ENGINE

Type		K12N
Number of cylinders		4
Number of valves		16
Piston displacement	cm^3	1 197
Bore X stroke	mm	73 x 71.4
Compression ratio		12,0
Maximum output	kW @ r/min	59/6,000
Maximum torque	Nm @ r/min	104/3,000
Fuel distribution		Multipoint injection

TRANSMISSION

Type		5MT
Gear ratio	1st	4,425
	2nd	2,304
	3rd	1,675
	4th	1,225
	5th	1,000
	Reverse	5,152
Final gear ratio		3,417

DIMENSIONS

Overall length	mm	3 675
Overall width	mm	1 475
Overall height	mm	1 825
Wheelbase	mm	2 350
Front overhang	mm	670
Rear overhang	mm	655
Tread front	mm	1 280
Tread rear	mm	1 290
Load deck length	mm	1 620
Load deck width	mm	1 300
Load deck height	mm	1 070

DIMENSIONS (CONTINUED)

Minimum turning radius	m	4.5
Minimum ground clearance	mm	160

CAPACITIES

Seating capacity	Persons	2
Fuel tank capacity	Litres	32
Loading capacity	Kg	615

CHASSIS

Steering	Rack & pinion
Brakes front	Ventilated disc

Immobiliser		❖

❖ : Standard - : Not Available

*ESP is a registered trademark of Daimler AG.

The ESP is designed to help keep the new EECO under control. However, its effectiveness depends on driving conditions and the state of the road surface.

If the tyres exceed their grip limit and the wheels start to spin or skid, it may not be fully effective.

EECO FOR EVERYTHING

EEXTRA

The Suzuki Eeco panel van is available at your nearest Suzuki dealership. Book your test drive today.

SUZUKI COMPLETE

Suzuki understands that purchasing a new vehicle is a substantial investment. Our unwavering commitment to customer satisfaction is represented in our 'Suzuki complete' package, which includes every aspect of after-sales support, with warranty, and roadside assistance standard.

Warranty

All commercial Suzuki models are covered by a comprehensive manufacturer's warranty against any defects for a period of 3-year/100 000km.
This is supported by a six-year body corrosion warranty subject to terms and conditions. The comprehensive manufacturer's warranty is strictly reserved to new passenger cars purchased at Suzuki dealerships nationwide.

Service Intervals

15 000km or one year, which ever comes first.

Roadside Assistance

Every new Eeco panel van comes with a roadside assistance plan. Some of the benefits offered by this comprehensive package include: battery and locksmith call-out services, mechanical and electrical, breakdown towing (accident towing is optional), emergency medical rescue, vehicle repatriation and a stand-by-you roadside security armed-response service.
